Dairy Classes Were Well Filled—Competition Was Very Keen—Entries In Sheep And Hogs Were Lighter Than Last Year—Attendance Was Unusually Good

LEIDEN, Aug. 18.—Under ideal weather conditions the 1912 annual fair was held here on Tuesday and Wednesday, 1912 and 13.

The showing in cattle was particularly strong especially Herefords who have become standard in the locality since the creamery started operation. The judges expressed themselves as well pleased with the

The central assumption would not be fair either to Russia or the Dominions. The latter might be tempted to think that conflict, had it arisen, was based on the fact that Russia was insisting upon their right to participate in determining their relationships with foreign countries. They would hardly abandon the right to gain the privilege of trading with bankrupt Russia, and would not make a deal on their own account or ratify the one made by the Government at Westminster. The British taxpayers, too, would have no right to complain if the Government were in the arrangement without assuming any share of the responsibility involved. Under the terms of the Government of Great Britain will accept no liability to defend its subjects with Russian firms. People residing in the Dominions could not expect to do business in Russia on the credit of Great Britain; nor that the British Government would guarantee their commercial ventures in that realm of adversity.

The foreign and domestic products are not so keenly contested this year, since the school fair which was held at the same time was popular and attractive, some of the competitors in these branches being reserved for juvenile fairs.

MORE MILEAGE.

An eminent motor engineer says that the day is not distant when an automobile weighing less than 500 pounds and capable of running fifty miles on a gallon of gasoline will be in general service. He holds that the cars now in use are absurdly heavy and wasteful in operation. The efforts of modern designers have been in the direction of the ideas of this specialist. Less weight and more mileage are what the trade desires. The cheapness of gasoline in this country has been a deterrent to progress along such lines. European inventors and designers are working on lighter cars and striving to extend the mileage. The price of petrol ranges much higher there than here and the saving important.

THIS POOR OLD WORLD.

snipe Tribune:

The statement that the world is getting worse is a new one. Neither did it originate with the present century. The ancient Roman and Greek philosophers bewailed the **bas** age in which they lived. Seneca in the first century organized the great society of the Vanities as a protest against the frivolity and wickedness of the times. In the seventeenth century eminent English divines fulminated against the immorality of court life under the Merrie Monarch.

In order to make a fair estimate of the world's progress it is necessary to have a long historical perspective—just as statisticians have to have a

THE GRAIN CROPS.

Canadians need not worry about the estimates in Chicago upon our wheat crop, or about the variations in the price of futures. There is too much bullish flavor about the Chicago reports. Several experts from that city have been in the west, and rust damage and a poor lookout generally, but thoroughly they know the ground is not apparent. Significant, however, that no Canadian authority uses the Chicago reports: official bureaus mostly them.

This week, when wheat prices have been adding by leaps and bounds, a report comes from the National Institute of Agriculture stating that estimates of the average crop will not put up to 1934. This refers to cereal crops through 1934.

"In the main," the report declares, "it may be said that the yield in northern and northwestern Europe will be somewhat above the average, and that central and southern Europe will be somewhat below the average. The drought has reduced the crops to below the average in south and eastern Europe."

As regards the Southern Hemisphere," the report continues, "the outlook is somewhat brighter. It is sufficient to say that the outlook is generally favorable for the crops, although rainfall has been irregular and the situation is not yet fully determined."

The data already received, indicates a yield in 1934 of 1.6 per cent. above the 1933 average compared with 1934 last year. 4.5 per cent. of 1933, 4.4 per cent. of 1934, 21.4 per cent. of 1935, 21.4 From that moment on it was comparatively easy for the new converts to learn the Greek. The wisdom of the old scribe lay in the unknown. But everything connected with "Christ" was being written in Greek and Alexander had to learn the Greek. The world of the west was the message from the "Christ" and Alexander could carry Galilee to Rome. He came. And, his name was Paul.

MANVILLE CROPS IN GOOD CONDITION

Whitford Case Was Dismissed In Court—Trial Held At Vermilion

(By Bulletin Correspondent)

MANNVILLE, Aug. 18.—The trial of Joseph Whifford of Mannville, charged with the murder of a woman, was continued today. The telephone wires at Myrnan, sometime in May last was disarmed by His Honor Judge Morrison of Verdun, and the defendant was charged the trial was held, the Crow was represented by A. H. Gibson of Fairview. The trial was held at Mannville and the defense, and succeeded in having the case dismissed as stated.

Whifford has been opened up an office and will practice here, and will be in the office on Saturday, and comes highly recommended. This will give Mannville a lawyer of some standing. A friendship has been here for the past five years.

This district needs plenty of summer crops. The weather is a very good crop, the straw is a summer bright but good warm weather is needed. The fall crop is a very good mature in the proper way.

BOTH TEAMS HAVE STRONG LINE-UPS

Turner And Either Oklahoma Or Luna To Be Rival Mountaineers

The first game of the "Little World Series" for the baseball championship of Northwestern Canada will start tonight at Diamond Park at 6.15, with either Oklahoma City or Luna as the rival of Edmonton with the great Laurie Scott catching, and either Turner or Luna as the pitcher. The game will be a "best of seven" series, with the first game being the "make or break" game. The players and managers are all agreed on the game, and they have declared it good.

Conditions Are Similar

The conditions of the seven games are much the same as those of the "World Series" in 1919, in that, as far as is possible, the game is to be a "best of seven" series, with the first game being the "make or break" game. The players and managers are all agreed on the game, and they have declared it good.

Famous Places Are Visited—Hope To Meet Newsboys' Band At Wembley

Here in another welcomed letter from the Grads. They are still in Dunkerque, France, and the letter is dated August 13, 1924.

This is a lovely summer resort, right on the seashore, and we spend most of our time loafing on the beach. The weather is just what we need, and the food is excellent.

Winnipeg Wins Honors At Regina Tourney

REGINA, Sask., Aug. 18.—Mr. Bourque, of Edmonton, holder of the Edmonton City Alberta, singles champions, added the Western Canada open tennis title to her honors when she won the final set against Mrs. Penetick, Saskatoon, 7-5, 6-1.

After a spirited fight for the first set, the Alberta lady had a safe margin throughout. The title was the best that developed in any of the ladies' events of the tournament.

In an exhibition doubles match which took the form of an international attraction, Mrs. Bourque and Mrs. McCarly defeated Mrs. Penetick and Mrs. Hildyoff in another display of flashy tennis, 6-3, 13-11. The victors had challenged the Regina team, who won both the Saskatchewan and the Western Canada open doubles titles.
